INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1935 edition of the Winston-Salem City Directory.

Confidence in the continued growth of Winston-Salem's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Winston-Salem to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Winston-Salem Directory will fulfill its mission as a source of authentic information pertaining to the city.

Population

The population of Winston-Salem is estimated at 84,906, based on the number of personal names in the Alphabetical section of the Directory, with due allowance for those under Directory age. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory, and, likewise, in the population estimate.

Five Major Departments

The five major departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 21 to 48, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Winston-Salem. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Winston-Salem, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 49 to 452. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Winston-Salem, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 453 to 592. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 593 to 632. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE NUMERICAL TELEPHONE DIRECTORY extends from page 633 to page 660.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Winston-Salem.

The Winston-Salem Directory Library

Through the courtesy of the publishers of the Winston-Salem City Directory, a Directory Library is maintained in the offices of the Winston-Salem Chamber of Commerce, for free reference by the general public. This is one of nearly 450 Directory Libraries installed in the chief cities of the United States and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.
Publishers.

Statistical Review

Form of Government—Aldermanic-Commission.

Population—Total, 75,274; males, 35,792; females, 39,482; total colored, 32,566 (1930 U. S. Census). American-born, 99.3%. Local estimate for 1935, 85,000.

Area—15.5 square miles.

Altitude—877 to 1,000 feet.

Climate—Mean annual temperature, 58 degrees F.; average annual rainfall, 54.4 inches.

Parks—13, with total of 310 acres, valued at $1,000,000.

Assessed Valuation— $101,000,000, with $1.30 per $100 tax rate.

Bonded Debt—$6,573,456.

Financial Facts—1 state bank, 1 national bank and 1 trust company, with total deposits of $64,591,422.28, and total resources of $69,933,554.77 (exclusive of trust funds, Oct. 30, 1934). 4 building and loan associations, with total assets of $5,216,000 (June 30, 1934).

Postal Receipts—$373,729.89 (fiscal year ended June 30, 1934).

Telephones in Service—7,716.

Churches —127, representing all denominations.

Industry—Chief industry: Manufacturing. 72 manufacturing establishments, employing 16,798 workers, paying wages of $11,452,654 annually, and having products valued at $283,566,465 annually (1930 U. S. Census). Principal manufactured products: Cigarettes, tobacco products, furniture, underwear, blankets, hosiery, bathing suits, tinfoil and air-conditioning machinery.

Trade Area—Retail area has radius of 50 miles, and population of 802,358; wholesale area, radius of 150 miles, and population of 4,434,119.

Newspapers—2 dailies and 1 weekly.

Hotels—3, with total of 612 rooms. Newest hotel opened in 1929.

Railroads—3: Southern, Norfolk & Western and Winston-Salem Southbound. 23 "off-line" railway offices and 3 steamship line offices.

Highways—U. S. 121, 158, 311 and 421; State 48, 60, 66, 67, 77, 89, 109, 661, 771 and 892.

Airports—2, including municipal airport.

Amusements—Largest auditorium in city seats 3,000 persons. 6 moving-picture theatres, with total seating capacity of 8,200 persons. 3 golf courses.

Hospitals—4, with total of 400 beds.

Education — Salem College and Academy. 21 public schools, including 4 senior high. Number of pupils in public schools, 15,445; teachers, 404. Value of public school property, $4,720,000.

Public Libraries—3, with total of 25,558 volumes.

City Statistics—Total street mileage, 265, with 143 miles paved. Miles of gas mains, 96.5; electric street railway, 10. Number of water meters, 13,300; light meters, 16,172; gas meters, 2,874. Capacity of water works (municipal), 18,000,000 gallons; daily average pump, 6,000,000 gallons; miles of mains, 219.95; value of plant, $3,000,000. Fire department has 80 men, with 9 pieces of motor equipment. Value of fire department property, $150,000. Police department has 87 men, with 1 station and 17 pieces of motor equipment.

Interesting Historical Background

Co-operation was and is the foundation of Winston-Salem.

On July 6, 1415, John Huss, of Bohemia, a province of Austria, was burned at the stake as the first Protestant martyr preceding the Reformation. His martyrdom, together with the persecution of the small band which followed him, bore the germ of a movement which culminated in migration.

This migration was ultimately to be responsible for the initial settlement of Winston-Salem, North Carolina.

Fleeing from Bohemia and Moravia to escape further religious persecutions, John Huss' little band settled for a time in Saxony, Germany, under the protection and patronage of Count Zinzendorf. Continued resistance to the desire for full religious liberty caused them to look toward the New World, and in 1740 the "Moravians," as they are now called, settled in Pennsylvania.

SALEM—In January, 1753, a small party seeking an ideal location, settled at the three forks of the Yadkin River, calling the region "Wachovia," to perpetuate the name of the beautiful estate of Count Zinzendorf left behind in Europe. Thirteen years later, in 1766, eight men—two Danes

two Germans, one Englishman and three Moravians commenced the first building in the town of Salem. Here the Moravians made their permanent abode and when the visitor enters Winston-Salem, a tinge of Old World atmosphere meets his eye, not so much in architecture, but in the names that reflect the past. Here one finds the MORAVIAN Church and College, the ZINZENDORF Hotel, the WACHOVIA Bank & Trust Co., and numerous other names harking back to the origin of the city.

What the Pilgrim Fathers were to New England, the Protestant Moravians were to this region. Each brought a strong desire for religious freedom. Each brought a desire for education. Both brought that courage and daring, that zeal and heroism which made possible the America of today.

The colony prospered from the beginning, for the Moravians, like the Pilgrim Fathers, brought with them ideas and ideals founded on thrift, economy and community spirit.

NISSEN OFFICE BUILDING, WINSTON-SALEM

One of the recently-erected skyscrapers of the Piedmont area of the Carolinas. Many communities, in keeping with the demands for office space, made necessary by their growth, have erected towering office structures which are indicative of the confidence of investors in the future of this section.

By co-operation the first church was built, and co-operation proceeded to build the first school.

WINSTON—The prosperity of the colony began to attract others and about 1850 a small settlement was commenced on the fringe of Salem. This twin colony grew rapidly until on Jan. 15, 1851, the Legislature passed an act naming Winston in honor of Major Joseph Winston, of Revolutionary fame.

CAROLINA THEATRE, HOTEL AND APARTMENTS

The two communities, Winston and Salem, grew together until in May, 1913, by a large majority in each municipality, it was voted to combine them under the name of Winston-Salem—the "Twin City."

THE TWIN CITY—Permeating the term "Twin City" is the text of the Moravians, "Unitas Fratrum," or "Unity of Brothers," which in familiar phraseology is "co-operation," and this co-operation has been largely responsible for the growth and prosperity of the industrial metropolis of the Carolinas—Winston-Salem.

In commenting upon the care exercised by the early settlers in selecting this particular location, the United States Department of Agriculture, in a soil survey, has the following to say:

"Prior to the settlement of Forsyth County, a reconnaissance survey was made to determine the quality of the land, its physiography, drainage, etc. The natural conditions were considered ideal. Perhaps no other colony in America was so systematic and thoroughly scientific in its investigation of the natural resources as

those settlers who first occupied this section. The colony was successful from the beginning."

In 1880 the population of Winston and Salem together was that of an average village.

From this village, Winston-Salem progressed to a dominant position in the famous Piedmont Plateau of the Carolinas. Its industries, in 1909, turned out products valued at $18,240,000, while in 1930 the total output of its plants was $283,566,465, far outstripping that of any other city in the Piedmont area. The 1930 U. S. Census revealed a population of 75,274.

There are many factors responsible for the growth of Winston-Salem, both in population and industry. In the first place, it is the center of that part of North Carolina of which the late Franklin K. Lane said:

HOTEL ROBERT E. LEE

One of the newer type of hotels which have been erected in the Piedmont area of North Carolina. During the past twelve years, in keeping pace with the Old North State's progress in highways, schools and industries, many of the communities have erected hotels that, in size, equipment and operation, come under the metropolitan classification. The Hotel Robert E. Lee, named for the South's noblest son, is a hostelry of 385 rooms, built especially to accommodate large conventions and meetings.

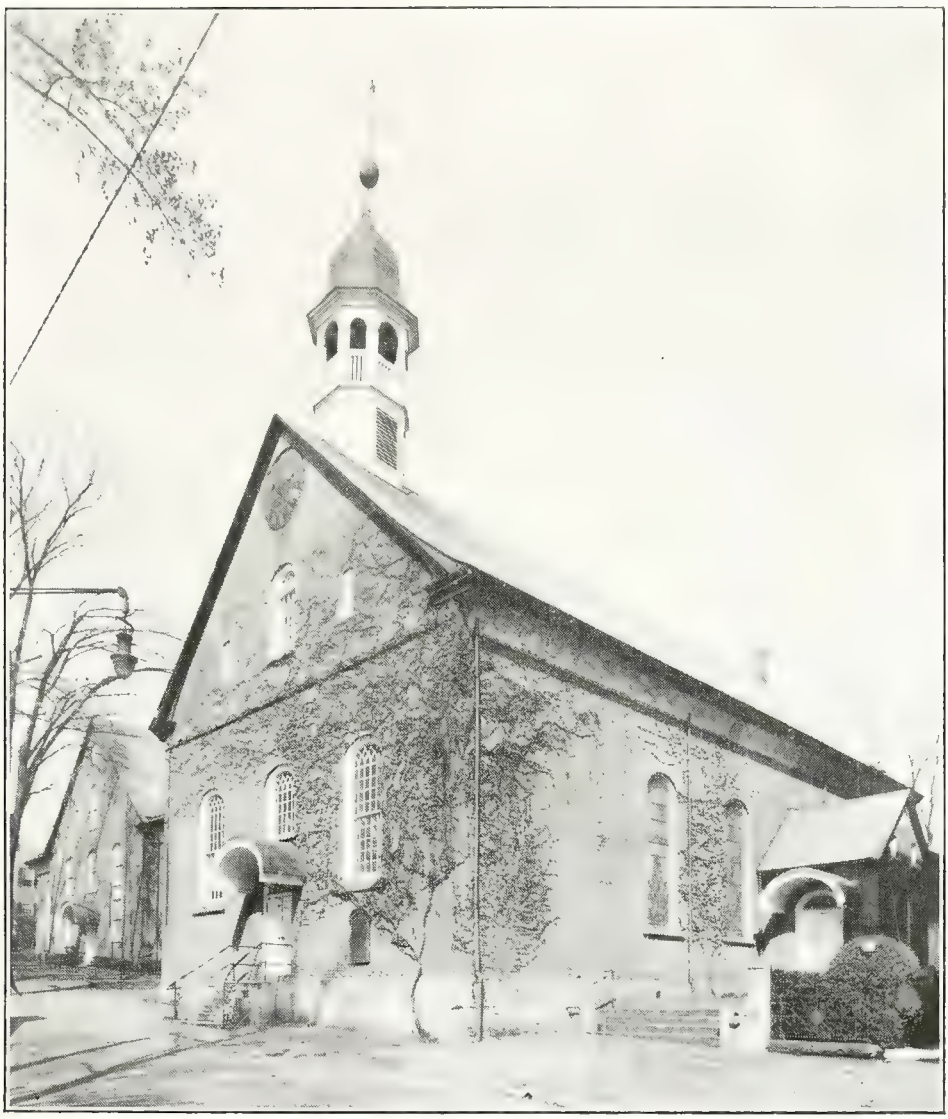

"That section of the Carolinas stretching from a point about Asheville to a point about Goldsboro is destined to become the greatest industrial area in the country because of its great industrial advantages and economies."

Location and Topography

The Piedmont Plateau, extending from Virginia through the Carolinas to Alabama, needs no advertising, as it is generally known throughout the nation as a leading industrial area of the Southeast.

The topography may be generally described as consisting of smoothly rolling slopes dissected by numerous streams which furnish an effective natural drainage system.

The general elevation of the city is approximately 250 feet above the

HOME OF THE MORAVIAN CHURCH AT WINSTON-SALEM

Built during the latter part of the Eighteenth Century. Much of the work in this edifice was done by the brethren of the colony. The church bell was transported overland by stage-coach from Bethlehem, Pennsylvania. The church is the scene of the Easter morning sunrise service, which, each year, attracts over 50,000 visitors from distant points to Winston-Salem. The bishop begins the service from the steps of the church. The Easter morning service has taken place annually since the founding of the colony in 1766.

WINSTON-SALEM is located toward the center of this section, in the northwestern sector of North Carolina.

This city of approximately 85,000 population, covering an area of 15.5 square miles, is the county seat of FORSYTH COUNTY, and is situated on a plateau 877 to 1,000 feet above sea level.

Yadkin River, which is located some 15 miles distant, and is the main artery of drainage for the region.

The precise location of Winston-Salem is:

Latitude 36° 05′ 48″
Longitude 80° 14′ 48″

Topographical Variety

Topography has a distinct effect on living. Continuous residence in

mountain country or monotonous flats has a decided influence on the lives and character of people. Happier conditions are found between these extremes, and the topographical variety surrounding Winston-Salem is pleasing. The Blue Ridge Mountains are visible from Winston-Salem. Pilot Mountain raises its crest as an enduring landmark 20 miles to the northwest of the city, and the Sauretown Range, 35 miles to the north, provides a screen which benefits climatic conditions.

OFFICE BUILDING OF THE R. J. REYNOLDS TOBACCO CO., WINSTON-SALEM

Erected in 1929 at a cost of more than $2,000,000. This building is twenty-three stories in height and is one of the most ornate in the country. Modernistic design throughout.

Climatic Conditions

Possibly the entire mountain screen is responsible for the exceptional climatic conditions attained in the immediate vicinity. While the prevailing winds are from the southwest, the cooler, tree-clad mountain areas temper the breeze, especially after sundown. The nights are regularly pleasant for sleeping. No violent gales or winds inconvenience the city. High winds are apparently thrown at least twenty miles farther to the east. Unquestionably the mountain range is responsible for the

R. J. REYNOLDS MEMORIAL AUDITORIUM

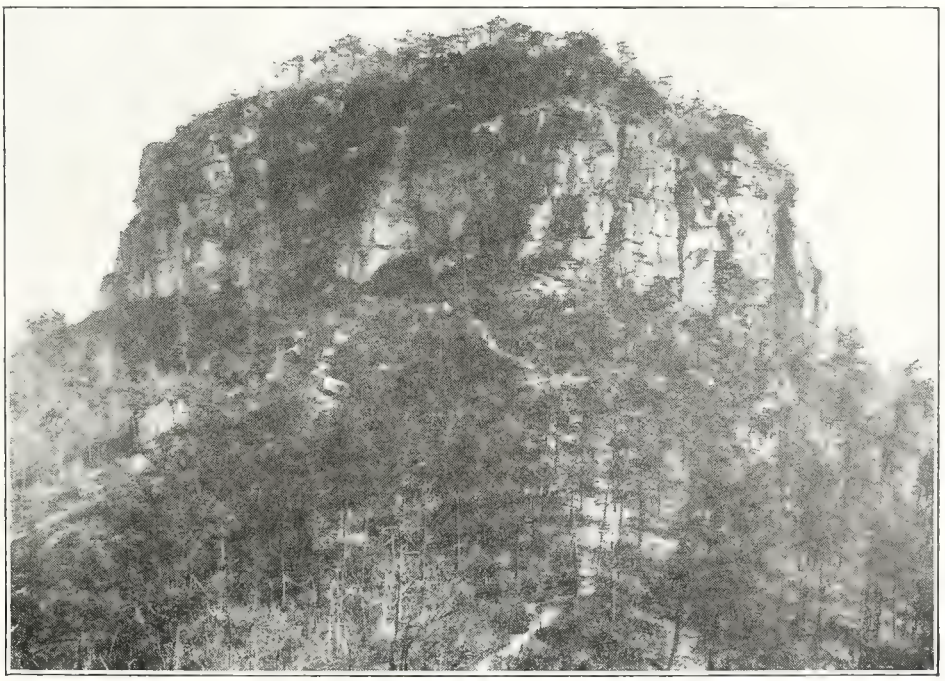

Used as a part of the High School plant for chapel and other exercises. Building cost $750,000.

fact that the average July temperature is only 75.8 degrees, and that the mean annual temperature is 58 degrees, Fahrenheit.

Summer visitors from sections farther north expecting a "Palm Beach" atmosphere, are surprised. Agreeably so when they discover that due to the dip south in the 75th-degree isothermal line (July average), the climate is more pleasant than in such points as Cincinnati, Baltimore, Philadelphia and Washington. It is quite noticeable that there is a lower degree of humidity than at more northern points.

Average of 232 Clear Days

Probably due to some peculiar topographical arrangement of the mountains, Winston-Salem enjoys an average of 232 clear days in the year. This is an exceptional condition, where points 20 to 30 miles distant have only 136 to 175 clear days in the year. In fact, compared with Los An-

PILOT MOUNTAIN, NEAR WINSTON-SALEM

A peculiar geological formation, rising 1,000 feet above its mountain base. The name "Pilot" was given to this mountain because it was used as a direction-finder by the Indians in the early days of the Colony of the Carolinas. The Red Men would make their way to this mountain and get their directional bearings from this point.

GRADE SCHOOL AT WINSTON-SALEM

One of the grade schools in Winston-Salem's school development plan. This school, like others built recently, is located on acres instead of lots, which areas are developed and used for school and neighborhood recreational activities.

geles and San Francisco, which cities have, respectively, average of 166 and 168 clear days, Winston-Salem might well claim to be a "City of Sunshine."

The sunshine in the fall and winter months is delightful. The normal January temperature ranges between 35 and 40 degrees Fahrenheit. There is an average snowfall of 6 inches in the winter, distributed over January and February, but the sun's rays clear the streets in a day or two. In consequence, automobiles can be driven and golf played with pleasure throughout the entire winter.

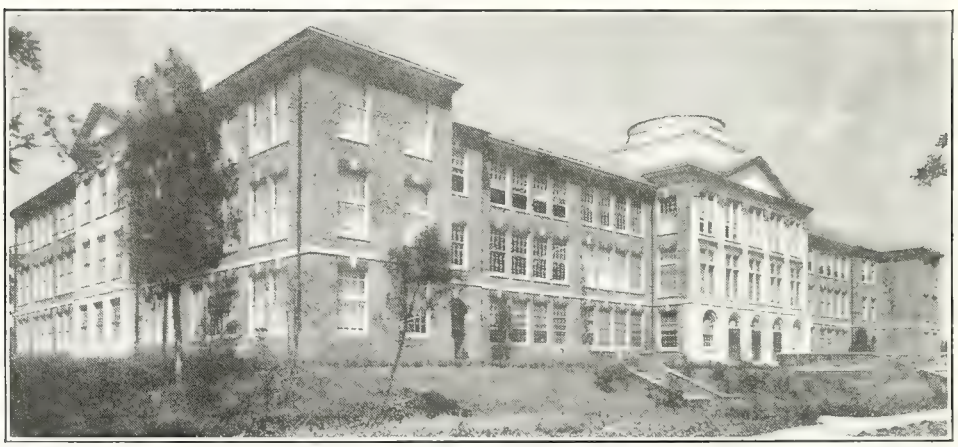

The above description, it is believed, exactly portrays climatic conditions in Winston-Salem.

Industry and Education

Winston-Salem is nationally known for two outstanding factors in its growth and development. One is industry and the other is education.

While the manufacture of tobacco products is its chief industrial pursuit, it has a number of diversified industries that, in themselves, would make the city a manufacturing center of no mean importance.

The output of the cigarette factories of Winston-Salem, in comparison with those of other cities in which cigarettes are manufactured, easily makes this community the world's cigarette capital. Far more cigarettes of a particular brand are manufactured in Winston-Salem than in any other city in which this product is made. Over 10,000 people are employed in Winston-Salem's tobacco industry, which includes the production of cigarettes and smoking and chewing tobacco in large volume.

FIRST UNIT OF RICHARD J. REYNOLDS HIGH SCHOOL AT WINSTON-SALEM

Winston-Salem is known in American educational circles as a city which has developed the basis for an ideal school plan. 75 acres are part of the High School plant, some of the space being set aside for future expansion and the balance being devoted to an athletic field. Each school in Winston-Salem has approximately 10 acres of ground, used for neighborhood and school athletic and recreational activities.

SALEM TAVERN AT WINSTON-SALEM

President Washington spent the night and was entertained in this building during his visit to the Colony of the Carolinas.

MODERN HOME AT WINSTON-SALEM

During the past few years many homes have been erected in the environs of Winston-Salem that might be classed as estates. This residence, like many others, is located on a wide expanse of land, and is typical of residential structures erected by some of Winston-Salem's citizens. Winston-Salem's low tax rate and low valuation has greatly encouraged home-owning in this city.

The hugeness of the tobacco industry of Winston-Salem can be visualized by noting the fact that the city pays to the United States Government, in internal revenue, more than $160,000,000 per annum and its manufacturers purchase from tobacco farmers on this and other nearby leaf tobacco markets over $20,000,000 worth of leaf tobacco per year.

Blankets, hosiery, underwear and furniture are the four other major products. In underwear it is one of the leading centers of the country. One unit of this local industry—that of heavy knit goods—far exceeds the production of any single unit in any other state. The South's largest woolen mill gives Winston-Salem the rank of America's third largest blanket center. The world's largest silk rayon hosiery mill is another Winston-Salem manufacturing establishment, while in furniture this city is one of the leading North Carolina manufacturing points—the state as a whole producing more furniture than any other in the U. S.

As a city of industry, Winston-Salem compels attention because the value of the output of its factories exceeds that of any other Southern city except Baltimore. In value added to manufacture, it outranks all Southern cities except Baltimore, and is, according to the United States Census, one of America's forty leading industrial cities.

The interesting thing about the industrial development of Winston-Salem is that ninety-six per cent of the city's factories are of local origin and ownership. All the major industries had their beginning through the initiative and energy of local citizens, and each one had a small beginning. The entire investment in the tobacco industry in 1875 was $25,000. Today one company alone, based upon net earnings in excess of $30,000,000 per annum, has a valuation of over $500,000,000.

While the city has grown industrially, the civic leaders of the community have not lost sight of the necessity of planning definitely a comprehensive program of civic development. This phase of the community's vision is best emphasized by the school development program.

In educational circles the "Winston-Salem Plan" is often referred to. In 1922 the city made provision for a modern school development program, not only to take care of present needs, but for the future. Each school is located upon expansive grounds instead of on mere lots, not only permitting expansion of facilities, but providing neighborhood school recreational and play areas. The average school acreage under the plan is ten, and each school was located according to density of population and area served, as charted in the City Plan.

Winston-Salem is the home of Salem College and Academy, a Class A institution, founded in 1766. This institution, though an educational activity of the Moravians, is non denominational, and the annual student enrollment represents nearly every state in the Union, as well as a number of foreign countries. In one year students from Alaska, China, Russia, and Nicaragua were among those enrolled.

Salem College, despite the ravages of the Revolutionary and Civil Wars, has never closed its doors since it was founded, except during the usual vacation period.

Social-Service-Mindedness

Another outstanding feature about Winston-Salem is the record it has made in connection with the annual Community Chest campaign. Those engaged in social service work often refer to Winston-Salem as "The Nation's Community Chest City." This appellative is given to the community because of the fact that for thirteen consecutive years Winston-Salem has not only exceeded the set goal, but only one day was required to put over each drive successfully.

Lowest Taxes

Winston-Salem enjoys the distinction of having the lowest combined county and city tax rate in North Carolina. The county rate is 50c and the city is $1.30. This low tax rate is not only due to Winston-Salem's form of government, but because its major industries have adopted a policy of concentration and have built all their plants in Winston-Salem; and have their home offices and assets domiciled here, thus making a wide spread of taxable values to the advantage of the individual homeowner or small taxpayer. Property in Winston-Salem is assessed on a basis of sixty per cent of true value. If assessed on a basis of true value —100% —the combined county and city tax rate for the fiscal year 1934-35 would be only $1.08.

HILL'S
WINSTON-SALEM
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1935

Copyright, 1934, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

(c) Denotes colored.

NOTICE TO ATTORNEYS

In some portions of the country the Directory Publishers facilitate obtaining orders for publications of summons by searching all State and City Directories for defendants and furnishing affidavits. We have a complete and up-to-date Library of City Directories, comprising the latest issues obtainable, and shall be glad to confer with any attorneys who might desire to make use of our services in this connection.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
